

2018 BIGGEST YEARLING BUCK CONTEST

Whitetails of Wisconsin & Wisconsin Cervid Farmers Foundation Biggest Yearling Contest

Whitetails of Wisconsin (WOW) and its foundation, the Wisconsin Cervid Farmers Foundation (WCFF), will be sponsoring a 4th Annual “Biggest Yearling Buck Contest.”

The contest will consist of two categories; one for the largest non-typical yearling and one for the largest typical yearling. The only way to be eligible for the contest is to win or purchase a straw of semen at the Whitetails of Wisconsin 2018 annual meeting.

Donated straws of semen can be purchased on the silent or live auction at the 2018 WOW meeting. Various games will be available at the meeting for a chance at winning a straw of donated semen. Any “farm credit” or “choice straw” purchases must include receipt showing straw chosen attached to their Doe Declaration.

Semen donors can choose to have their straw of semen placed in the auction or placed in a game/raffle. This will be the donor’s preference.

\$2000 will be awarded to the winner in each category. The winner of each category will also receive a free full page ad and an article featuring their farms in the Whitetails of Wisconsin newsletter.

The donors of the semen that produce the largest yearlings in each category will receive a free full page ad and an article featuring their farms in the Whitetails of Wisconsin newsletter. The donors will also receive a life time membership to Whitetails of Wisconsin or a \$500 cash prize.

Rules for the contest:

1. Semen will need to be used in the 2018 breeding season.
2. A maximum of 3 does can be bred per straw of semen. **(SUGGESTION: If your does are not already DNA’d, pull their hair samples at time of breeding.)**
3. All does will need to be declared by completing the attached Doe Declaration form and providing it to the WCFF Office with each doe’s official tag number, secondary tag number and pedigree and submit it prior to or at the 2019 Annual WOW Banquet.
4. Any “farm credit” or “choice straw” purchases must include receipt showing straw chosen attached to their Doe Declaration.
5. Doe DNA numbers need to be registered with WCFF by **August 1, 2019.**
6. Each winning yearling buck will need the buck’s antlers DNA certified in order to be eligible for the contest payout. The cost to DNA certify the antlers will be absorbed by WOW.
7. No limit on the amount of entries per farm/ranch.
8. Buyers of semen who do not AI can partner with someone else who does AI or can buy an open doe and AI the doe at another farm.
9. The contest is not limited to Wisconsin buyers and is open to everyone.
10. Scoring of the antlers will be done at the 2021 WOW meeting by an official SCI scoring panel.
11. All semen donated to WOW or WCFF cannot be resold.
